

Priyanka Solanki

Web Developer | Manual Tester |B.E. in Computer Engineering |

Email: priyankabasolanki994@gmail.com | **Phone:** 91-7285030271 | **Location:** Ahmedabad

SUMMARY

Enthusiastic Web Developer with hands-on experience in React.js, Node.js, and Manual Testing. Skilled in building responsive web applications and identifying bugs through structured testing. Familiar with MERN stack and eager to contribute to real-world projects while continuously improving technical skills.

EDUCATION

Vidush Somany Institute of Technology and Research

Bachelor of Engineering (Computer Engineering)

Final Semester – Result Awaited

- **SPI: 8.42**

SKILLS

- **Frontend:** React.js, JavaScript , Bootstrap
- **Backend:** Node.js, Express.js
- **Database:** Firebase, PostgreSQL, mongoDB
- **Testing Skills:** Manual Testing ,Test Case Writing, Bug Tracking
- **Tools:** Git, GitHub, VS Code

EXPERIENCE

Full Stack Developer Intern- Orionik Technologies

- Contributed to a live POS system **AaravPOS**
- Developed and modified **UI components and pages** using React.js
- Integrated APIs to fetch and display dynamic data in the application
- Implemented **dynamic currency** handling across multiple modules
- Worked on **receipt (invoice) formatting** for printer output and drawer
- Performed manual testing on frontend modules, identifying and reporting UI and functional bugs.
- Executed test cases to validate workflows and improve usability
- Collaborated with developers to fix issues and enhance system performance

PROJECTS

1. React Project – [VSITR-Paper]

- Developed a React-based portal enabling students to download academic papers, with Firebase integration for real-time data management.
- Implemented an Admin Panel to manage paper and user, update entries, and control system access. Designed clean, responsive UI with smooth navigation.

- Connect the project with Google Search Console to monitor website performance, indexing.

2. Full Stack – [food-delivery]

- Developed a full-stack Food Delivery Application using the MERN stack.
- Built separate Client (User) and Admin interfaces for smooth management. Implemented Authentication using JWT for secure login
